Ethiopian Dual-Time Engine

Finalized Attendance Locking

3-Absent Urgent Alerts

Automatic Sibling Grouping

Cross-Category Makeups

Gradebook & Assessment Engine

Batch Single-Page Report Cards

1. System Overview & Core Capabilities

The **Bete Yared Sunday School Management System** is a cloud-ready platform designed to automate attendance recording, manage comprehensive student and family profiles, power an academic grading and assessment engine, generate individual single-page student report cards, and provide proactive pastoral follow-up.

Scoped Access & Operational Integrity

Clean role segregation between **Administrators** (handling scheduling, student profiles, assessments, report cards, and promotions) and **Attendance Encoders** (restricted strictly to assigned class rosters).

Draft vs. Finalized Locking

Encoders can save ongoing sessions as working **Drafts**. Once **Finalized**, attendance sheets are locked against unauthorized alterations to ensure strict historical compliance.

Ethiopian Dual-Time Engine

Bridges international 24-hour schedules with traditional Ethiopian parish hours (e.g. 09:00 - 11:00 EAT renders automatically as ከጠዋቱ 3:00 - 5:00 ሰዓት).

Grade Management & Report Cards

Assessment weighting, batch mark entry sheets, configurable pass/fail thresholds, class rankings, and 1-click single-page printable report cards with official church logo branding.

2. Role-Based Access Control (RBAC) Matrix

FEATURE / SYSTEM CAPABILITY	ADMINISTRATOR (አስተዳዳሪ)	ATTENDANCE ENCODER (መዝጋቢ)
Dashboard & Statistical KPI Cards	FULL ACCESS	SUMMARY VIEW
Student Registration, Profile Editing & History	FULL CONTROL	READ-ONLY
Family & Sibling Household Directory	FULL ACCESS	HIDDEN
Bulk Excel / CSV Student Import with Verification	FULL ACCESS	HIDDEN
Session Scheduling & Recurrence Engine	FULL CONTROL	HIDDEN
Assign Multiple Encoders to Sessions	FULL CONTROL	HIDDEN
Edit Upcoming Sessions (session_date ≥ today)	YES (UPCOMING ONLY)	HIDDEN
Record Attendance for Assigned Sessions	ALL SESSIONS	ASSIGNED ONLY
Save Temporary Working Drafts	YES	YES
Finalize & Lock Attendance Sheets	YES	YES
Modify Finalized / Locked Attendance	AUTHORIZED EDIT	LOCKED (CONTACT ADMIN)
Add Cross-Category Make-up Students	YES	YES
3-Consecutive-Absent Urgent Alerts & Direct Dial	ACTIVE MONITOR	HIDDEN
Inactive Students Registry & Reactivation	FULL CONTROL	HIDDEN
Annual Student Academic Promotions	FULL CONTROL	HIDDEN
Create Assessments & Configure Weighting	FULL CONTROL	HIDDEN
Batch Enter & Save Student Marks	FULL CONTROL	HIDDEN
Configure Minimum Passing Threshold (%)	FULL CONTROL	HIDDEN
Gradebook Matrix & 1-Click Excel Export	FULL EXPORT	HIDDEN
Batch Report Card Print System (Single Page)	FULL GENERATION	HIDDEN
Category Attendance Matrix & Excel Export	FULL EXPORT	HIDDEN
User Account Administration & Password Resets	FULL CONTROL	OWN PASSWORD ONLY

3. Detailed Module Specifications

3.1 Student Management & Family Sibling Grouping

The student registry captures 10 distinct attributes: First Name, Father's Name, Mother's Name, Christian (Baptismal) Name, Age, Primary Phone, Emergency / Guardian Phone, Profession/School, Previous Church Service, and Category.

Automated Sibling Grouping Algorithm

The system executes an automated match across `father_name` and `mother_name`. Siblings attending different departments (e.g. one in Child, one in Grade 5, and one in Youth) are automatically organized under a single household banner in the **Families** directory, allowing unified pastoral care and parent notifications.

3.2 Session Scheduling & Recurrence Engine

Flexible Recurrence Series

Schedule one-time classes or generate weekly/monthly batches (4, 8, 12, 16, or 24 weeks). The system verifies that no schedule collision occurs in the same category.

1-Click Continue / Copy Session

Easily duplicate a prior session to next week (+7 days) or next month (+1 month) with all encoders and course information pre-filled.

3.3 Attendance Recording & Locking Rules

Present (ተገኝቷል)

Student physically attended class.

Absent (ቀረ)

Student missed class without excuse.

Permission (ፈቃድ)

Official leave/excuse with reason.

Attendance Data Safeguards

- **Future Date Guard:** Attendance cannot be marked prior to the actual session date.
- **Finalized Lock:** Finalized attendance is locked for encoders. Only Administrators can adjust locked records.
- **Upcoming-Only Session Edit:** Session schedule and assigned encoders can only be modified for upcoming dates (`session_date ≥ today`).

3.4 Cross-Category Attendance Workflow (Make-up Classes)

When a student takes a make-up class in another category:

- 1 **Add to Active Sheet:** The encoder clicks "+ Add Student from Other Category", searches the student's name, and adds them.
- 2 **Cross-Category Badge:** The student is marked Present with an amber "Cross-Category" label and receives attendance credit.
- 3 **Home Category Disabled State:** In their home category sheet on that same date, their entry is disabled and tagged "Attended in other class", preventing duplicate marking.

3.5 3-Consecutive Absent Urgent Alerts & Direct Dial

Proactive Pastoral Follow-Up

A sliding window automatically detects any student who missed **3 consecutive sessions** in their home class. The **3-Absent Alerts** tab provides instant 1-click buttons: **Call Student** and **Call Emergency Contact** for immediate telephone outreach and pastoral note recording.

3.6 Inactive Students & Academic Promotions

Inactive Student Registry

Maintains records of withdrawn or paused students with full past history preserved, offering 1-click reactivation at any time.

Annual Academic Promotion

Facilitates year-end transitions by advancing students to the next grade level with complete audit logging per student.

3.7 Grade Management, Gradebook Matrix & Report Cards

A. Assessment Creation & Weighting Engine

Administrators create and manage academic assessments per category. Key configuration parameters include:

Category & Semester

Assigned to specific Sunday school grades and terms (1st, 2nd, or Summer term).

Academic Year & Date

Full Ethiopian year support from 2026 down to 2018 ዓ.ም. (default 2025 ዓ.ም.) with dual date conversion.

Weight (%) & Max Score

Can weight 100% individually or split into multiple tests (e.g. 20%, 30%, 50%) totaling 100%.

B. Batch Student Mark Entry Sheet (ጥላግቤት)

Rapid Matrix Mark Entry

Clicking "ወጤት መዝገብ / ጥላ" opens a spreadsheet-style modal populated with all students in the class. Teachers and administrators can enter scores rapidly using keyboard navigation (Tab/Enter), with live percentage previews, max-score enforcement, and 1-click batch saving.

C. Configurable Passing Threshold & Pure-Numerical Grading

Minimum Pass Threshold

Administrators configure the passing score percentage (default **50%**) globally or per category.

Pure Numerical Ranking

No arbitrary letter grades (A, B, C, D). Students are evaluated on weighted total, overall percentage, class rank, and **Pass (አልፏል)** / **Fail (አላለፈም)** status.

D. Gradebook Summary Matrix & Excel Export

The **Gradebook Matrix** provides a master tabulation table of the entire class across all tests in the semester, displaying:

- Individual scores and weighted points for each assessment held in the semester.
- Cumulative Total Weighted Score (%) achieved out of 100%.
- **Class Rank (ደረጃ)** calculated dynamically and ordered from 1st place downwards.
- Final Result Badge: **አልፏል (Pass)** in green or **አላለፈም (Fail)** in red.
- **1-Click Excel Export**: Downloads the formatted gradebook spreadsheet for official records.

E. Batch Report Card Print System (Single-Page Layout)

Ink-Friendly Monochrome Single-Page Format

The **Batch Report Cards (ወጤት ካርድ ንትም)** system generates individual student report cards formatted to fit exactly **1 student per page** for clean printing.

Header & Identity: Church logo, Parish Title, Student Full Name, Baptismal Name, Category, Semester, Academic Year.

Academic Breakdown: Detailed table of all tests taken, max scores, scores obtained, weights, and weighted contribution.

Summary & Signatures: Total Score, Class Rank (ደረጃ), Status (አልፏል/አላለፈም), and official signature lines for Teacher and Admin.

4. Step-by-Step User Manual

4.1 Guide for Attendance Encoders (መዝጋቢዎች)

- 1 Login:** Enter your encoder username and password on the login screen.
 - 2 Locate Assigned Session:** Navigate to the **Sessions (ክፍለ-ጊዜያት)** tab. Your assigned sessions feature a green "Assigned to You" badge.
 - 3 Open Attendance Form:** Click **Take Attendance (መገኘት መዝግብ)** on the session card.
 - 4 Mark Attendance:** Use **Mark All Present** for quick bulk recording, or toggle individual student badges between **Present (ተገኝቷል)**, **Absent (ቀረ)**, or **Permission (ፈቃድ)**.
 - 5 Add Make-up Students (Cross-Category):** If a student from another category attends, click "+ Add Student from Other Category", search their name, and add them.
 - 6 Save Draft vs. Finalize:**
 - Click **Save Draft (ጊዜያዊ ረቂቅ)** if the class is ongoing and you will complete it later.
 - Click **Finalize & Save (አጽድቀህ መዝግብ)** once complete to lock the attendance record.
-

4.2 Guide for System Administrators (አስተዳዳሪዎች)

- 1 Student Registration & Import:**
 - Go to **Students** → click "+ Register New Student" → Fill in details → Click **Save**.
 - To import in bulk, go to **Category Attendance Matrix** → click "Import from Excel/CSV".
 - 2 Session Scheduling & Assigning Encoders:**

Go to **Sessions** → click "+ Create New Session" → Fill title, date, time (check Ethiopian dual-time preview), select category, check assigned encoders, choose recurrence (e.g. Weekly 12 weeks) → Click **Create**.
 - 3 Managing Pastoral 3-Absent Alerts:**

Open the **3-Absent Alerts** tab → Review flagged students → Click **Call Student** or **Call Emergency** for immediate telephone outreach.
 - 4 Managing Assessments & Entering Marks:**
 - Open **Gradebook (የወጤት መመዝገቢያ)** → click "+ አዲስ ፈተና / ምዘና ፍጠር" → Set Category, Semester, Academic Year ('2025 ዓ.ም.'), Date, Weight, and Max Score.
 - Click "ወጤት መዝግብ / ሞላ (Enter Marks)" on the assessment → enter student scores in the batch modal → click **Save All Marks**.
 - 5 Gradebook Matrix & Report Card Batch Printing:**
 - Click **የወጤት ሰንጠረዥ (Gradebook Matrix)** to inspect class ranking and export to Excel.
 - Click **ወጤት ካርድ አትም (Batch Report Cards)** → click **አትም / በ-PDF አስቀምጥ** to print all single-page report cards at once.
 - 6 Academic Promotions & User Management:**
 - Go to **Promotions (የክፍል ሽግግር)** to advance students at year-end.
 - Go to **User Management (ተጠቃሚዎች)** to create Encoder accounts and manage credentials.
-
